SUMMARY

Resourceful IT professional with hands-on experience in software development, web technologies, and database management. Comfortable working with Python, Django, JavaScript, and other technologies, and skilled at building and maintaining scalable web applications, APIs, and user interfaces. Experienced in cloud services, automation, and integrating AI/ML solutions. Enjoys collaborating with teams to solve problems and deliver practical, user-focused solutions.

EXPERIENCE

Python Developer Intern | Sciatus Research | Mar 2025 – Jun 2025

- Developed a voice translation and cloning model using Hugging Face, achieving 60–70% voice match accuracy.
- Deployed multi-region VPN servers on AWS, enhancing secure, location-based access for critical operations.
- Built a full-stack Django CRM with a responsive UI and OpenAI-powered chatbot, reducing client response time by 30%.

Data Entry Operator | Aveosoft | Nov 2023 – Nov 2024

- Managed daily product listings (100+ items) and monitored live auctions, ensuring accurate data entry and management.
- Executed targeted web scraping projects to gather critical data, improving data collection efficiency by 20%.

Content Writer | Capital Infotech | Apr 2022 – Jul 2023

- Created over 100 SEO-optimized, plagiarism-free technical articles and web pages, increasing organic site traffic by 15%.
- Conducted in-depth SEO research and analysis to improve brand visibility and expand audience reach across digital platforms.

PROJECTS

TGuide | AI Trip Planner & Travel Guide (Full-Stack Web Development) | Jan 2025 – May 2025

Demo: tguide.pythonanywhere.com

- Built a responsive 3D travel website in Python/Django with user login and AI-generated itineraries using OpenAI API.
- Integrated 400+ Kerala tourist spots with images via Google and OpenStreetMap APIs.
- Enabled custom spot addition, hotel suggestions, day-wise maps, live tracking, and checklists.
- Developed a 3D chatbot using Sentence Transformers and OpenAI for interactive trip guidance.

Xplore Intern | Internship Portal Website (Full-Stack Web Development) | Sep 2024 – Nov 2024

GitHub: github.com/kirankailasan/XploreIntern.git

- Developed an internship website with user registration, profile management, and real-time internship tracking.
- Enhanced engagement by 30% through automated notifications and profile tracking.
- Tested with 50+ student and employer profiles, reducing manual effort by 50%.

EDUCATION

Master of Computer Applications | University of Calicut, Kerala | May 2025

Bachelor of Science | University of Calicut, Kerala | May 2022
